# LOGOMARK

Aureum's logo embodies the essence of quiet luxury — a seamless fusion of elegance and intention. The monogram "A" forms a balanced composition of soft curves and defined edges, symbolizing harmony between heritage and modern refinement.

This mark represents more than identity; it captures Aureum's philosophy of timeless design, crafted precision, and graceful restraint. Its simplicity invites recognition, while its sculpted form speaks to the enduring sophistication at the heart of the brand.

# LOGO CONCEPT

The Aureum logomark is rooted in the purity of form and the elegance of proportion. Inspired by the flowing curvature of the letter “A”, it reimagines the initial as a symbol of balance, sophistication, and continuity. The mirrored geometry extends this motif into a symmetrical emblem, where each line meets in harmony — reflecting Aureum’s pursuit of timeless beauty and measured luxury.

This design language merges classic typographic grace with modern minimalism, allowing the mark to remain versatile yet distinct across applications. It embodies Aureum’s essence: refined, enduring, and effortlessly elevated.

# LOGOTYPE

The Bodoni typeface, chosen as the logotype for Aureum, captures the brand's refined and timeless essence through its high contrast and elegant serifs. The type's balanced proportions and graceful structure reflect Aureum's pursuit of modern classicism and understated luxury.

This versatile and free-for-commercial-use font lends a sense of heritage and sophistication to the brand's visual identity, ensuring clarity and consistency across both digital and print applications.

# LOGO LOCKUP

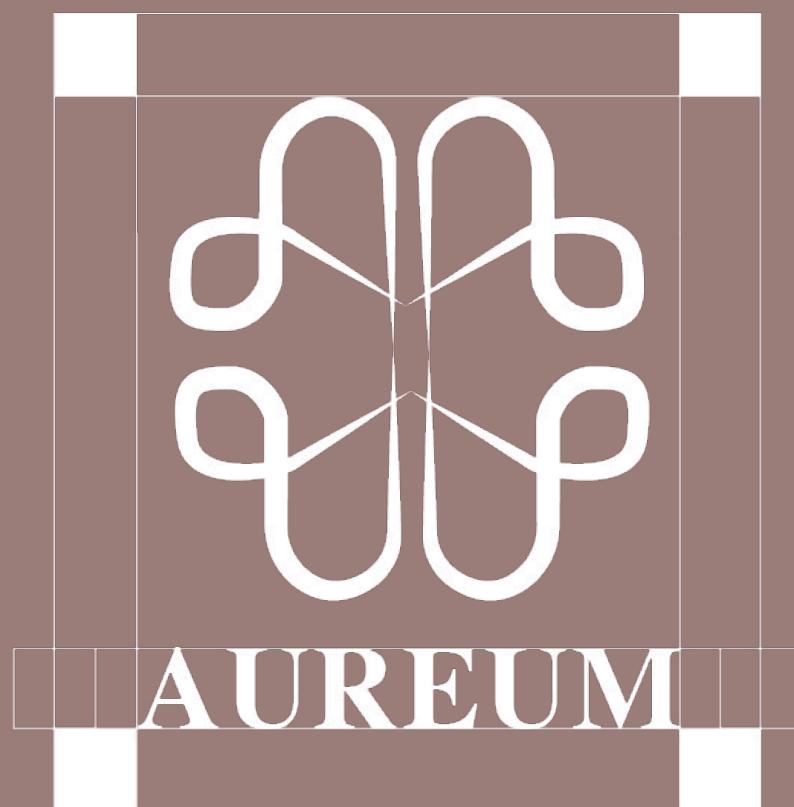

The combination of the Aureum logomark and Bodoni logotype creates a unified and instantly recognizable visual identity. This lockup ensures balance and consistency across all applications, harmonizing the flowing emblem with the structured typography.

Together, they embody Aureum's commitment to refined elegance and modern luxury, presenting a cohesive expression of the brand's timeless sophistication across both digital and print platforms.

# CLEAR SPACE

To maintain the elegance and legibility of the Aureum logo, a minimum clear space must be preserved around it at all times. This ensures that no text, image, or graphic element interferes with the logo's visual impact. The minimum clear space is defined by the height of the letter "A" in the logotype (denoted as x). This measurement should be applied evenly on all sides of the logo to maintain balance, clarity, and sophistication across every use. Within the logo itself, the spacing between the monogram and the wordmark follows a proportional rule of 0.5x, providing visual harmony between the emblem and the typography.

# MINIMUM SIZES

The Aureum logo is optimized for clarity and balance across both print and digital formats. To maintain its legibility and refined stroke contrast, the logo must not be reproduced smaller than 0.75 inches in height for print or 50 pixels in height for digital applications.

At sizes smaller than this threshold, the monogram “A” should be used independently to ensure visual integrity and brand recognition. This guideline preserves the elegance and precision of Aureum’s identity across all scales.

# PLACEMENT

As a vertically structured logo, the Aureum lockup is best positioned where its balanced proportions can be fully appreciated. It should be placed centrally or along the primary vertical grid line, maintaining ample clear space to preserve its refined presence.

For documents or layouts with horizontal orientation, the monogram may be used independently to ensure optimal visibility and spatial harmony. Detailed stationery and collateral layouts follow these same principles, ensuring a consistent expression of Aureum's elegant and sophisticated identity across every medium.
